

Create New Project> Select Free Style Project

The screenshot shows the Jenkins web interface in a browser. The address bar displays `localhost:8080/job/Email_free_style_project_20/configure`. The Jenkins logo and navigation links are at the top. The breadcrumb trail is `Dashboard > Email_free_style_project_20 > Configuration`. On the left, the 'Configure' sidebar has 'General' selected. The main area is titled 'General' and shows a 'Description' text area. Below it, there are checkboxes for 'Commit agent's Docker container', 'Define a Docker template', and 'Discard old builds'. A 'Plain text' link is also visible. At the bottom, a screen sharing toolbar is present with buttons for Audio, Video, Participants, Chat, Share, Pause, Annotate, Show webinar, and More.

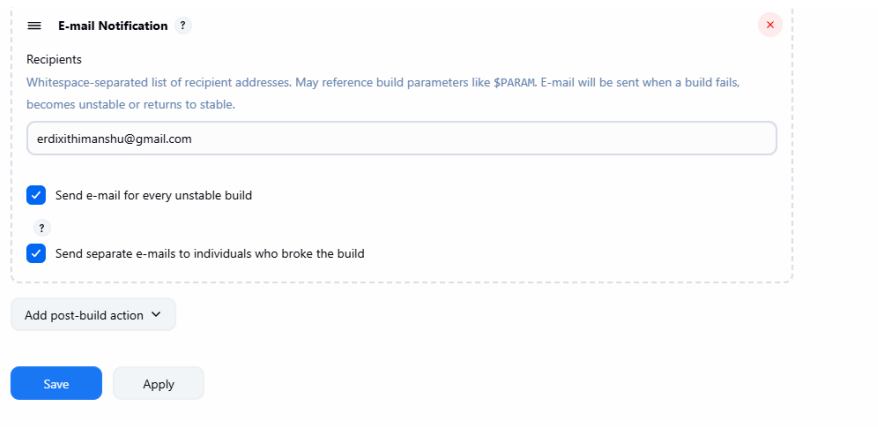

Goto> Build Steps> Execute Shell

The screenshot shows the Jenkins web interface, specifically the 'Build Steps' configuration tab for the same job. The breadcrumb trail is `Dashboard > Email_free_style_project_20 > Configuration`. The 'Build Steps' section is active, showing a description: 'Automate your build process with ordered tasks like code compilation, testing, and deployment.' Below this, there is an 'Add build step' button. A dropdown menu is open, listing various build step templates. The 'Execute shell' option is highlighted. Other options include 'Filter', 'Add a new template to all docker clouds', 'Build / Publish Docker Image', 'Execute SonarQube Scanner', 'Execute Windows batch command', 'Invoke Ant', 'Invoke Gradle script', and 'Invoke top-level Maven target'. A screen sharing toolbar is visible at the bottom.

Add below command for success build:

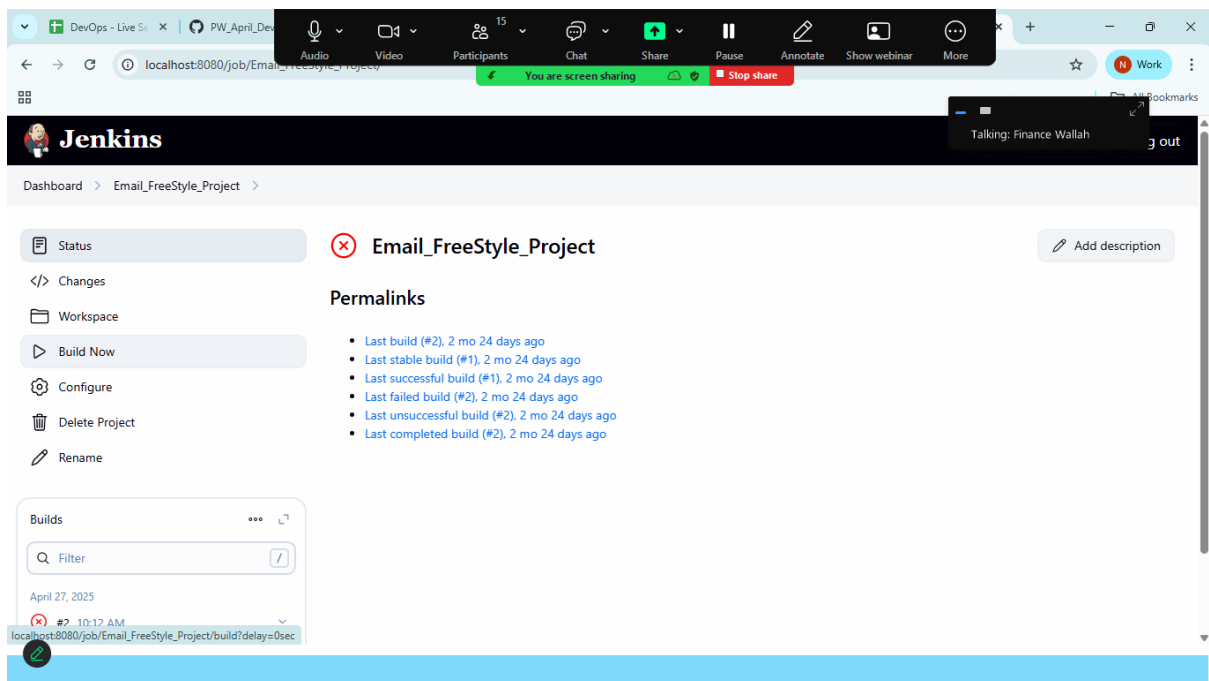

```
echo "welcome to PW Skills"
```

In post build action> choose Email Notifications and provide an email id

The screenshot shows the 'E-mail Notification' configuration window in Jenkins. It has a title bar with a menu icon, the text 'E-mail Notification', and a help icon. Below the title bar, there's a 'Recipients' section with a text area containing 'erdixithimanshu@gmail.com'. A note below the text area says: 'Whitespace-separated list of recipient addresses. May reference build parameters like \$PARAM. E-mail will be sent when a build fails, becomes unstable or returns to stable.' Below this, there are two checked checkboxes: 'Send e-mail for every unstable build' and 'Send separate e-mails to individuals who broke the build'. At the bottom, there's a 'Add post-build action' dropdown and two buttons: 'Save' and 'Apply'.

Click on apply and save

The screenshot shows the Jenkins web interface. At the top, there's a browser window with a toolbar showing 'Audio', 'Video', 'Participants', 'Chat', 'Share', 'Pause', 'Annotate', 'Show webinar', and 'More'. Below the browser window, the Jenkins logo is visible. The main content area shows the 'Email_FreeStyle_Project' configuration page. On the left, there's a sidebar with links: 'Status', 'Changes', 'Workspace', 'Build Now', 'Configure', 'Delete Project', and 'Rename'. The main area has a title 'Email_FreeStyle_Project' with a red 'X' icon and an 'Add description' button. Below the title, there's a 'Permalinks' section with a list of links: 'Last build (#2), 2 mo 24 days ago', 'Last stable build (#1), 2 mo 24 days ago', 'Last successful build (#1), 2 mo 24 days ago', 'Last failed build (#2), 2 mo 24 days ago', 'Last unsuccessful build (#2), 2 mo 24 days ago', and 'Last completed build (#2), 2 mo 24 days ago'. At the bottom, there's a 'Builds' section with a search filter and a list of builds. The first build is '#2' with a red 'X' icon, dated 'April 27, 2025', and a link to 'localhost:8080/job/Email_FreeStyle_Project/build?delay=0sec'.
