

Ansible

Step: 1 Create AWS Ubuntu Instance with **Ansible25.pem** Key

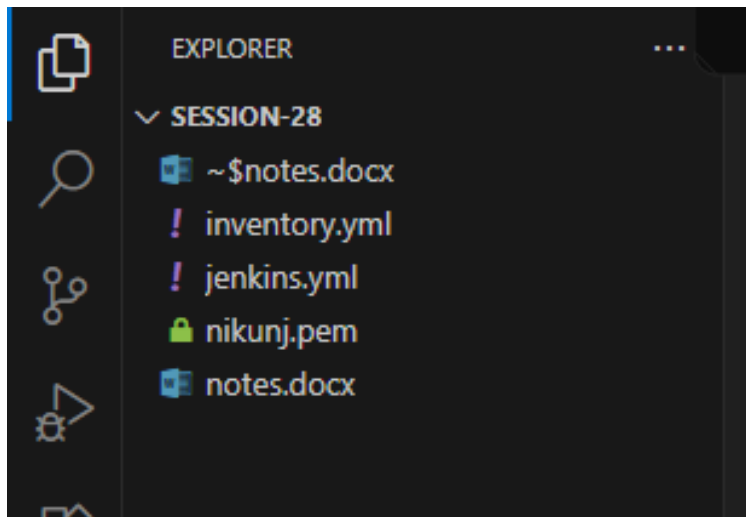

Step:2 connect using awsCLI and check the connection

Copy the ssh and paste to your Terminal/CMD where **Ansible25.pem** key is Available and connect using AWS Cli

Step:3 create Project

Step:4 Create inventory.yml

```
all:
  hosts:
    aws1:
      ansible_host: 13.222.243.30
```

```
ansible_user: ubuntu
ansible_ssh_private_key_file: nikunj.pem
```

Step:5 Create Jenkins.yml File

```
---
- name: Install Jenkins on Ubuntu
  hosts: aws1
  become: yes

  tasks:
    - name: Install Java (open JDK 21)
      apt:
        name: openjdk-21-jre
        state: present
        update_cache: yes
    - name: Add Jenkins repository key
      apt_key:
        url: https://pkg.jenkins.io/debian-stable/jenkins.io-2023.key
        state: present
    - name: Add Jenkins Repository
      apt_repository:
        repo: deb https://pkg.jenkins.io/debian binary/
        state: present
    - name: Update apt Cache
      apt:
        update_cache: yes
    - name: Install Jenkins
      apt:
        name: jenkins
        state: present
    - name: Start Jenkins Service
      service:
        name: jenkins
        state: started
        enabled: yes
    - name: Ensure port 8080 is open for Jenkins
      ufw:
        rule: allow
        port: 8080
        proto: tcp
      when: ansible_facts['os_family'] == 'Debian'
```

Step:6 Run the Ansible Playbook

- `sudo ansible-playbook -i inventory.yml Jenkins.yml`

```

logout
Connection to ec2-13-222-243-30.compute-1.amazonaws.com closed.
nikunj@DESKTOP-M4S6FPT:/mnt/d/pw/Live Classes/Devops April/Session-28$ sudo ansible-playbook -i inventory.yml jenkins.yml
[sudo] password for nikunj:

PLAY [Install Jenkins on Ubuntu] *****

TASK [Gathering Facts] *****
The authenticity of host '13.222.243.30 (13.222.243.30)' can't be established.
ED25519 key fingerprint is SHA256:ycsvRpShkh/tfb8r5ljV/z0snjvQw131pAzSkXNRSvc.
This host key is known by the following other names/addresses:
  ~/.ssh/known_hosts:24: [hashed name]
Are you sure you want to continue connecting (yes/no/[fingerprint])? yes
ok: [aws1]
